## UNPRECEDENTED MONEY MAKING OPPORTUNITY

Dear Friend:-

The world stands appalled at the greatest marine disaster in the world's history. Probably no such thrilling story was ever penned before. When the news was first flashed through the air by wireless, men gasped but could not grasp or believe the awful news. Four days the world waited tensely, shudderingly for the grim details of the dreadful catastrophe. Grim enough was the story when it came, too. Far more strange, more fantastic in its gripping drama than the most vivid fiction that the world has yet produced.

"THE SINKING OF THE TITANIC and GREAT SEA DISASTERS" gives not only the full account of this appalling accident as told by the survivors--with its heroism--with all its heart-rending scenes--with all its thrilling experiences--with its pitiful tales of the widowed and orphaned; it also tells of the marvelous development of ship building, from the caravels of Columbus to the ten million dollar floating palaces of to-day--of the supposed safety of ocean travel. It tells of the development of wireless telegraphy, which made the rescue of the survivors possible. The lessons of the disaster are also discussed, and the necessary regulation of ocean travel and of wireless telegraphy. Altogether the book is one of the most interesting and valuable that has ever been published, and will be regarded as a permanent addition to the library.

THIS BOOK OFFERS YOU A SPLENDID OPPORTUNITY FOR MONEY MAKING. No story has ever gripped the imagination as this has. The meagre and unsatisfactory reports in the newspapers have only whetted the desire for an authoritative story of the disaster in permanent form. An opportunity like this comes but rarely, and to take advantage of it to the fullest extent you must seize it quickly. The complete sample book, fully illustrated, will be sent to you free of charge and postpaid on receipt of application blank below. The price of the book is only \$1.00; the cost to you 50 cents; and your profit 50 cents per copy. Everybody wants it, and you can take orders for 15 to 25 copies a day, and make from \$7.50 to \$12.50 per day. There is no time to lose, however. You must be first in the field if you would reap the rich reward. We urge you, therefore, to order the outfit to-day and start the work at the earliest possible moment.

Very truly yours,

UNIVERSAL BOOK AND BIBLE HOUSE.

Cut Off and Mail This Application for Free Outfit At Once.

The Greatest Marine Disaster in History

# THE SINKING OF THE TITANIC

**AND GREAT SEA DISASTERS**

**BY LOGAN MARSHALL**

The Noted Writer

Based on the Accounts of Survivors  
of the Fated Vessel

**A Complete and Accurate Account**

This story of the sinking of the Titanic, unlike many books of its kind, is not drawn from the imagination. The vivid description of the scenes on board of the fated vessel, and the sufferings of those who survived the disaster, are accurately described from the actual experience of the survivors as related by them. The material has been gathered and compiled by Logan Marshall, whose reputation for accurate and interesting description of this character is established wherever his books have been read.

THE TITANIC, THE \$10,000,000 LEVIATHAN WHICH CARRIED 1635 PEOPLE  
TWO MILES BENEATH THE WAVES

The book is profusely illustrated with a remarkable collection of actual photographs that have been gathered together without regard to expense. These photographs depict in true detail the interesting features of the Titanic, and include views taken near the scene of the wreck, photographs of the many illustrious men and women among the survivors and victims, and other illustrations that add life and interest to the text. The illustrations also include a number of drawings based on the detailed descriptions of eye-witnesses; these drawings are made by artists who have the special knack of putting verbal descriptions accurately into pictures, instead of using merely their imagination. **THE ILLUSTRATIONS IN THIS CIRCULAR ARE REDUCED TO HALF THE SIZE USED IN THE BOOK.** Size of book 6½ x 9 inches.

**Wonderful Array of Authentic Illustrations**

**Only Authoritative Book on the Subject**

An unusual demand for this book is assured not only by its complete, reliable and vivid character, but also by its special features of permanent value, which include accounts of other great marine disasters, a record of the development of shipbuilding in the attainment of speed and luxury, an interesting description of safety and life-saving devices used on shipboard, and a critical review of the causes of great marine disasters, with a statement of the legal and other regulations needed to insure greater safety in the future.

AFTER THE LAST BOAT WAS LOADED.

LOWERING THE BOATS. "Women and Children First"

Over 350 pages, over 50 illustrations, bound in cloth, with inlay
